DETAILED ACTION

Response to Preliminary Amendment

The preliminary amendment filed on July 21, 2003 canceling claims 1-5 and 12-18 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With regard to claim 6, lines 10-11 are functional and the claim fails to positively recite structure necessary to carry out the functional recitation of, "*can be detached from the cutting head...*".

Additionally, claims 6 and 7, recite the limitation "the cutting head" (clm. 6, line 8; clm. 7, line 3). There is insufficient antecedent basis for this limitation in the claims. It is unclear if "the cutting head" refers to the cutting head frame or if the cutting head is a separate element from that of the cutting head frame and if separate, how it relates to the rest of the claimed elements. Additionally, the claim Correction is required.

Claim 6 and its dependencies would be allowable if re-written to overcome the 35 U.S.C. 112 rejection(s).

Art Unit: 3725
